

Launching the new climate and development agenda

Welcome to the 2015 Global Landscapes Forum.

We invite you to take part in the wide range of activities designed for knowledge sharing and exchange, as we all come together to find pathways toward sustainable land use.

For updates and detailed descriptions of sessions and lists of speakers, please visit landscapes.org/glf-2015 on your laptop or mobile device.

Day 1 - Saturday, 5 December

11.00	Registration opens	
	Science meets theatre – Soil, society and sou Room: Mezzanine Bleu in the Amphithéâtre Hall (Neuilly sig	
12.15 - 13.45 Discussion Forums	 1.1. Action on zero deforestation pledges – The challenge of aligning public and private sustainability goals. A case study of palm oil in Indonesia Hosts: CIFOR, TFA 2020 Room: 252B 	1.2. Climate-smart agriculture for healthy landscapes and livelihoods Hosts: AIRCA, CATIE Room: 252A
	 1.3. Landscape Restoration Snapshot – Potential for achieving old and new climate ambitions Host: IUCN Room: 241 	1.4. It all begins at home – Climate action with multiple scopes and scales for achieving INDCs Hosts: TNC, GCF, FAO Room: 253
13.45 - 14.00	Short break	
14.00 - 15.00 OPENING PLENARY	Setting the stage - Strategic landscape in and development goals Room: Amphithéâtre Bleu	vestments to achieve climate
	 Speakers: Minister Laurent Fabius, Minister of Foreign Affairs ar Baroness Ariane de Rothschild, Chair of the Executive Ngozi Okonjo-Iweala, Economist and former Minister Emmanuel Faber, CEO, Danone Peter Holmgren, Director General, Center for Internat Facilitator: James Astill, Washington Correspondent, The Opening on behalf of Forum coordinators: Laura Tuck, Vice President for Sustainable Development, Wo 	e Committee, Edmond de Rothschild Group of Finance, Nigeria ional Forestry Research (CIFOR) e Economist

15.00 - 15.30 Coffee break & finger food (All food served is vegetarian)

15.30 - 17.00 Discussion Forums	 1.1. Indigenous Peoples' rights and land tenure – Fostering partnerships to tackle climate change Hosts: IIPFCC, TNC Room: Amphithéâtre Bleu 	1.2. Investing in integrated landscapes to achieve the SDGs Hosts: LPFN, EcoAgriculture Partners, UNEP, FAO, UNCCD Global Mechanism Room: 252A	 1.3. Up and down the scales of time and place - Integrating global trends and local decisions to make the world more food- secure by 2050 Host: IFPRI Room: 253
	 1.4. Shaping sustainable supply chains of the future How to create links between smallholder farmers, companies sourcing raw materials, and the environment Hosts: Livelihoods Fund, Danone, Mars Inc. Room: 252B 	 1.5. Managing and restoring natural tropical forests – Ensuring a sustainable flow of benefits for people in the context of global change Hosts: CIRAD, IUFRO, CIFOR Room: 243 	1.6. Odds and ends for restoring landscapes through agroforestryHost: ICRAF Room: 241

17.15 - 18.45 Discussion Forums	 1.1. Industrial agriculture, ape conservation and climate change – More than a business case for reducing deforestation Hosts: UNEP, UNEP-FI, Arcus Foundation Room: Amphithéâtre Bleu 	 1.2. REDD+ Forest Reference Emission Levels - Progress and challenges in developing countries Host: FAO Room: 252A 	 1.3. Scaling up restoration, bringing down poverty - An assessment of opportunities and risks, from the Amazon to Africa's Mayombe Forest Hosts: IIS, Agroicone, Augeo Room: 252B
	 1.4. Making a splash for SDGs and climate goals – Integrated water resource management and landscape approaches Hosts: SIWI, CIFOR, WLE Room: 253 	 1.5. The role of agro-ecology in exploring innovative, viable adaptation measures for resilient smallholder coffee landscapes Hosts: HIVOS, ICO, Hanns R. Neumann Stiftung, Coffee & Climate Room: 243 	 1.6. Commons tenure for a common future Hosts: CAPRi, ILC, CIFOR, Foundation for Ecological Security, Oxfam International Room: 241

.....

18.45 - 19.30 Break & finger food (All food served is vegetarian)

19.30 - 21.00 **Pecha Kucha-Style Night – Stories from the landscape** Featuring Eco-Hip-Hop Artist Xiuhtezcatl Martinez

Room: Amphithéâtre Bleu

Speakers:

- Xiuhtezcatl Martinez (Earth Guardians) We are all indigenous to the Earth
- Andrea Vásquez (IFSA) Who defines development? Consequences of non place- and cultural-based definitions
- Sayed Azam-Ali (Crops For the Future) How to feed a hotter world
- Houria Djoudi (CIFOR) Once, there was a lake
- Michael Taylor (International Land Coalition) A common vision The 10-65 challenge
- Tristan Lecomte (PUR Projet) Insetting via agroforestry at a landscape level
- Nienke Stam (IDH Sustainable Trade Initiative) Production and protection Business initiative for sustainable landscapes
- Nolan Hunter (Kimberley Land Council) Indigenous people leading climate mitigation

Be inspired: Creative presenters x 20 slides x 20 seconds each

Subject to change. Visit **landscapes.org/2015-agenda** for the most up-to-date information.

Day 2 - Sunday, 6 December

770				
7.30	Registration opens			
9.00 - 10.30 Discussion Forums	 1.1. Putting pledges into practice in Latin America – An early assessment of Initiative 20×20 Hosts: WRI, CIAT Room: Amphithéâtre Bleu 	for climate of mitigation a		 1.3. Strengthening land and resource rights through REDD+ – Policy and practice successes Hosts: USAID, ZALF, CIFOR, IIED, IUCN Room: 253
	1.4. Amazon Fund, the world's bigge conservation experiment? From resu payment to the experiences on the g Host: Amazon Fund Room: 243	lts-based	and models as a bridg for tomorrow Hosts: IIASA, CIFOR, Ed	pical landscapes – Emerging data te between the past and visions uropean Commission: Joint Research General for Climate Change Action
09.00 - 13.15 Side Event	From farmer's fields to lands Hosts: CCAFS, CTA, FANRPAN, CDKN, P		ood security in a ne	ew climate regime?
10.30 - 11.30	Coffee break & finger food (All	food serve	ed is vegetarian)	
11.30 - 13.00 Thematic High-level Sessions	 1.1. Resilient landscapes to reduce fragility, conflict and migration Hosts: The World Bank, PROFOR, TerrAfrica Room: Amphithéâtre Bleu 		technologies an emissions from	tion for carbon detection – How d communities can curb global land-use change bal Forest Watch Climate
	 1.3. This land is our land – Gender per on tenure and rights Hosts: CIAT, CGIAR Research Program WLE, IFPRI Room: 253 		stimulate sustai	gricultural fiscal policies to nable economic growth, food reduced deforestation
13.00 - 14.30	Lunch (All food served is veget	arian)		

13.15 - 14.15 Lunchtime Learning Events	Landscapes and seascapes for food, nutrition and the environment – Exploring business, policy and science connections Hosts: Stockholm Resilience Center, Bioversity International, CIAT, CIFOR Room: 241	GeoJournalism – A new way to combine data, maps and online storytelling With experts from six leading geojournalism platforms Hosts: Earth Journalism Network, Internews, Oak Foundation Room: 252A
14.30 - 16.00 HIGH-LEVEL PLENARY	Science-policy exchange - Big ideas to con climate and development Room: Amphithéâtre Bleu Speakers: • Minister Judi W. Wakhungu, <i>Minister of Environment a</i> • Eduardo S. Brondizio, <i>Professor of Anthropology, India</i>	nd Natural Resources, Kenya

- Robin Chazdon, Executive Director, Association for Tropical Biology and Conservation
- Edmund G. "Jerry" Brown, Governor of California

Facilitator: Jeff Sayer, Professor of Conservation and Development, James Cook University

.....

14.30 - 16.00 Youth Session	Enter the dragons' den – Youth to pitch ideas for sustainable landscapes Room: Salle Maillot
Jession	 Dragons: Paula Caballero, Senior Director, World Bank Steven Lawry, Director - Forests and Governance, Center for International Forestry Research (CIFOR) Bernard Giraud, Senior Sustainability Advisor, Danone Tui Shortland, Managing Director, Repo Consultancy Kemi Seesink, Policy and Advocacy Coordinator, Global Water Initiative Tint Lwin Thaung, Executive Director, The Center for People and Forests (RECOFTC)

16.00 - 16.30 Coffee break & finger food (All food served is vegetarian)

16.30 - 18.00 Discussion Forums	1.1. Taking stock of REDD+ – Past, present and future Hosts: CIFOR, GCF, Earth Innovation Institute Room: Amphithéâtre Bleu	 1.2. Green growth compacts How three states are pursuing a different industrial development Hosts: TNC, GCF Room: 252A 	 1.3. Mobilizing finance for integrated landscape initiatives – Three scalable financial instruments Hosts: European Investment Bank, Credit Suisse, Althelia Ecosphere, eco.business Fund, Global Canopy Programme, UNCCD Room: 252B
	 1.4. The economics of ecosystems and biodiversity for agriculture and food Host: UNEP Room: 253 	 1.5. Fueling a debate – Sustainable wood energy as restoration option? Hosts: BMZ, GIZ, ICRAF Room: 243 	 1.6. Engaging the private sector in long-term solutions to end Indonesia's forest fires and haze Hosts: IPOP, GAR, Musim Mas, Wilmar, Asian Agri, Cargill, KADIN Room: 241

18.00 - 18.15 Short break

18.15 - 19.30 **The way forward**

Room: Amphithéâtre Bleu

CLOSING PLENARY

Facilitator: Achim Steiner, *Executive Director, UNEP, and Under-Secretary-General of the UN* **Speakers:**

- Minister Ségolène Royal, Minister for Ecology, Sustainable Development and Energy, France
- Minister Greg Hunt, Minister for the Environment, Australia
- Minister Luis Felipe Arauz Cavallini, Minister of Agriculture, Costa Rica
- Abdon Nababan, Secretary General, Indigenous Peoples Alliance of the Archipelago (AMAN) and representative of the International Indigenous Peoples' Forum on Climate Change (IIPFCC)
- Mark Burrows, Managing Director and Vice Chairman, Global Investment Banking Credit Suisse

Closing on behalf of Forum organizers:

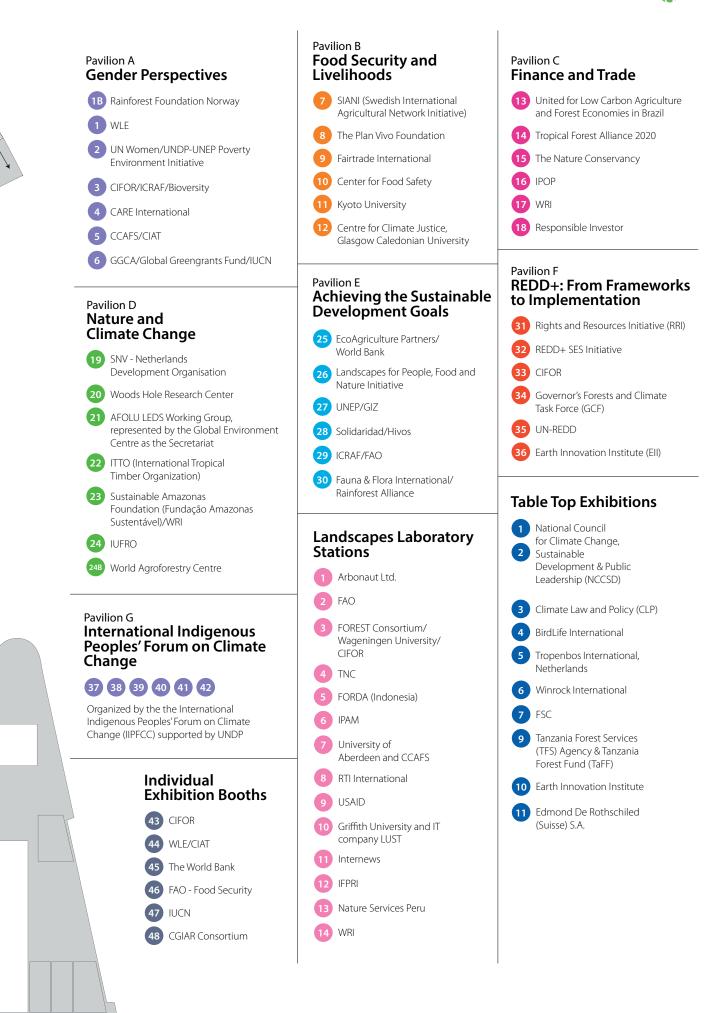

- Salina Abraham, International Forestry Students' Association & Youth in Landscapes Initiative
- Peter Holmgren, Director General, Center for International Forestry Research (CIFOR)

19.30 - 21.30 Cocktail reception

Subject to change. Visit **landscapes.org/2015-agenda** for the most up-to-date information.

j.-

Thematic Pavilions

Take part in dynamic, intimate and interactive knowledge-sharing activities at the seven Thematic Pavilions.

Sunday, 6 December

Time	Pavilion	Торіс
13:00 - 13:45	Gender Perspectives	Transforming climate change mitigation with gender integration – A fish-bowl discussion
	Finance and Trade	Investment opportunities for green growth – A Q&A
	REDD+: From Frameworks to Implementation	Equity in REDD+ governance – An open discussion
13:55 - 14:40	Food Security and Livelihoods	What is climate justice? An open discussion
	Nature and Climate Change	Bioenergy in the landscape – An expert exchange
	Achieving the Sustainable Development Goals	Private sector engagement in landscapes – A scenario exploration
	International Indigenous Peoples' Forum on Climate Change	Learning about traditional Inuit knowledge and lifestyle – Conversation with an Inuit leader
14:50 - 15:35	Gender Perspectives	Transforming climate change adaptation with gender integration – A fish-bowl discussion
	Finance and Trade	Financial innovation to support deforestation-free production with benefits for smallholders
	REDD+: From Frameworks to Implementation	Learning about REDD+: Storytelling
15:45 - 16:30	Food Security and Livelihoods	How to ensure responsible practices along agricultural commodity supply chains? A multi-stakeholder dialogue
	Nature and Climate Change	Climate Smart Landscapes – Key ingredients for impact at scale
	Achieving the Sustainable Development Goals	Integrated landscape management for SDGs – An open discussion
	International Indigenous Peoples' Forum on Climate Change	The Global Call to Action on Land Rights – Conversation led by indigenous peoples from Asia
16:40 - 17:25	Gender Perspectives	The big picture: Lessons for global climate policy – Group discussion
	Finance and Trade	Low carbon agriculture and forest economies in Brazil – Learning from local leaders
	REDD+: From Frameworks to Implementation	Performance assessment – Addressing the tough questions
17:30 – 18:15	Food Security and Livelihoods	Agro-ecology for mitigation and adaptation – An expert exchange
	Nature and Climate Change	Tackling complexity in forest and landscape restoration – Sharing best practices
	Achieving the Sustainable Development Goals	Strengthening policy for integrated landscape management to support the SDGs – Agenda setting workshop
	International Indigenous Peoples' Forum on Climate Change	Indigenous Peoples and REDD+: Film screening and Q&A session

The Launchpad

Be among the first to hear about exciting new initiatives, announced exclusively at the 2015 Global Landscapes Forum. More details at **landscapes.org/2015-launch**.

Day 1 - Saturday, 5 December

12.15 - 13.00	The Nakau Programme – Western Pacific Islands Regional Payments for Ecosystem Services Programme
	Announcing a rainforest protection initiative in the Pacific that pays rural landowners to care for their forests.
	Who? Organizations teaming up for socially responsible approach to REDD+ in Small Island Developing States
13.00	Launch of the Little Sustainable Landscapes Book
- 13.45	Announcing evidence from 25 case studies, dozens of examples, surveys of hundreds of integrated landscape initiative leaders, and expertise from some of the world's leading conservation and sustainable land-use groups.
	Who? Consortium of environmental organizations, partners from civil society and business
15.30 - 16.15	The Indonesian National Carbon Accounting System (INCAS) – Monitoring greenhouse gas emissions from land-based sectors, realizing REDD+
	Announcing a powerful system for tracking efforts to protect and restore forests and peatlands in Indonesia.
	Who? Environment ministers from Indonesia and Australia

Day 2 - Sunday, 6 December

09.45	Launch of two major African landscape initiatives
- 10.45	Announcing AFR100 – Restoring 100 million hectares of degraded and deforested landscapes in Africa by 2030 and the Africa Resilient Landscape Initiative.
	Who? African ministers, and representatives from donors and investors
11.30 -	Water: Shared – 125 cities and regions act for clean water from forests in Latin America
12.15	Announcing an initiative by 125+ governments across the Andes to protect their upstream water sources by conserving their forests.
	Who? Local authorities and environmentalists from Ecuador, Bolivia and Colombia
12.15	The South Sumatra Eco-Region Alliance – A partnership for change
13.00	Announcing a major effort to protect Indonesia's peatlands.
	Who? A public–private partnership including national government officials, the Governor of South Sumatra, and a representative of a pulp & paper company.
13.30	You are the Restoration Leaders
- 14.15	Announcing major new commitments under the Bonn Challenge.
	Who? National and subnational ministers, corporate leaders and officials

16.15 Asia-Pacific Rainforest Recovery Plan – Australia's approach to this regional initiative including

17.00 the launch of the Private Sector Roundtable and announcement of the host of the 2016 Asia-Pacific Rainforest Summit

Announcing ... a Private Sector Roundtable to facilitate private sector involvement in the Asia-Pacific Rainforest Recovery Plan, and details of the 2016 Asia-Pacific Rainforest Summit.

Who? Australia's environment minister, with counterparts from Asia-Pacific and private-sector partners

17.15 New commitments under initiative 20×20

Announcing ... new commitments under 2014's Initiative 20×20, plus a private-sector financing mechanism managed by the Inter-American Development Bank.

Who? Ministers and regional leaders from across Latin America

14.30 Realizing zero deforestation

15.15 **Announcing** ... a new report on how 170+ of the world's largest companies are managing key commodities linked to deforestation.

Who? CDP

- 15.15 Natural infrastructure A guide for business
- 16.00 Announcing ... a new platform that makes the business case for investing in natural, or green, infrastructure, with case studies and tools for business.

Who? World Business Council for Sustainable Development (WBCSD), and business leaders Neil Hawkins, Corporate Vice President & Chief Sustainability Officer at Dow; and Brandy Wilson, Global Director Sustainability at CH2M.

- 17.00
 Regional declaration to promote climate smart agriculture in Latin America
- 17.45 **Announcing** ... an unprecedented joint effort to pool resources to tackle climate change from the land sector.

Who? Ministers in charge of land use from across Central America and the Carribean

Background Briefs

Learn more about the four themes of the 2015 Global Landscapes Forum, and how these areas are integral to finding solutions for sustainable land use, in the Background Briefs, available for download from **landscapes.org/2015-briefs**.

Landscape Restoration

Pressure is mounting to get more food and raw materials from the land, large areas of which are already degraded. Soil and landscape restoration strategies are available, but the political will, research and resources are often lacking to put them into practice. Done smartly – underpinned by good, integrated research – landscape restoration can support efforts to achieve several Sustainable Development Goals.

Tenure and Rights

There is good evidence that sustainable landscape management is tied closely to strong customary tenure and clear, uncontested land rights. Conversely, deforestation and degradation go hand in hand with weak, poorly defined rights. Driven by this shift in thinking, the last few decades have seen a massive, if piecemeal and uneven, shift toward legal recognition of customary land rights and tenure.

Finance and Trade

Global trade and finance constitute a fundamental driver of land-use decisions worldwide. Despite noteworthy initiatives and partnerships, we have yet to mobilize the capital to drive sustainable development, trade and sustainability are too often separated, and matching private finance to sustainable land uses is seldom easy. While the constraints are many, progress is being made, with lessons to share.

Achieving Climate and Development Goals

Climate change and development goals are intricately connected. To make progress, we need to measure progress, which means setting benchmarks and agreed metrics based on common, reliable information sources. Care is needed to ensure we track all aspects of the landscape – biophysical, socioeconomic, and cultural – at every scale. Much work remains to be done, but good research and examples of best practice highlight the way forward.

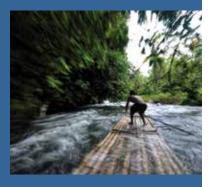

The photos on display are winners and finalists in the 2015 Global Landscapes Forum Photo Competition. Voting for the people's choice award continues until 14 December.
