November 2015

Re: Invitation to the Global Landscapes Forum – INCAS Launch session

Dear colleagues,

On behalf of the Indonesian Ministry for Environment and Forestry, I am writing to invite you to the launch of the Indonesian National Carbon Accounting System (INCAS) at the upcoming Global Landscapes Forum (GLF) in Paris on Saturday 5 December 2015.

The INCAS is a platform for greenhouse gas accounting for the land-based sectors in Indonesia. During GLF, we will be releasing the first national level results from the INCAS; a complete account of greenhouse gas emissions and removals from all of Indonesia's forest and peatlands for REDD+ activities. These results and associated methodologies have been documented in two new publications that will be released in Paris. A new website on INCAS will also be launched at this event, which will present the full results from INCAS both nationally and for all thirty-four provinces in Indonesia.

The official launch of INCAS will occur during a *Launchpad* session from **15:30 to 16:15 on Saturday 5 December 2015** at the GLF venue: **Palais des Congrès 2 place de la Porte Maillot 75017 Paris.**

In addition to this, we will be hosting a *Landscapes Laboratory* for the duration of GLF, from 5 to 6 December 2015. This will be a semi-interactive information booth based in the exhibition area of the conference centre. I encourage you to also visit the booth here for additional discussions and information.

Please note that participation in the GLF, including both INCAS sessions requires prior registration via the GLF website: http://www.landscapes.org/glf-2015/register/. Entry is free of charge to members of official country delegations and negotiators to the UNFCCC COP21, however online registration is still essential. You will be required to show your UNFCCC country delegation ID when you pick up your Global Landscapes Forum pass in Paris. Participants who are not members of an official country delegation will be required to pay an entry fee. Detailed available on the GLF website.

Additional information about this event is attached and further information can be found via the GLF website: http://www.landscapes.org/glf-2015/agenda/.

I hope that you are able to join us for this exciting event in Paris.

Yours sincerely,

Dr. Henry Bastaman

Director General
